SUMMARY

Motivated and detail-oriented software developer fresher with a strong foundation in programming, web development, data structures, and problem-solving. Skilled in Python, JavaScript, React.js, and MERN Stack technologies with hands-on experience in building web applications and working with databases. Familiar with frontend and backend development, responsive UI design, and basic machine learning concepts. Eager to contribute to software development projects, learn new technologies, and grow in a dynamic professional environment.

SKILLS

- **Languages:** Python (OOP, File Handling, Exception Handling), JavaScript
 - **Frontend:** HTML, CSS, React.js, Bootstrap
 - **Libraries:** Pandas, NumPy
 - **Backend & Database:** Node.js, Express.js, MongoDB, REST API Basics
 - **React Concepts:** Components, Props, State Management, Hooks, Routing
 - **Concepts:** Data Structures, Problem Solving, Machine Learning Basics
 - **Additional:** Basic Machine Learning, Data Cleaning, Data Analysis
-

EDUCATION

B.Tech in Information Technology | 2021 – 2025

Bhagwan Arihant Institute of Technology, Surat

CERTIFICATION

SAP Advanced Course on Emerging Technologies | 2023 – 2024

Bhagwan Arihant Institute of Technology, Surat

PROJECTS

Result Management System | May 2025

- Developed a web-based system to manage and generate student results
- Built separate admin and user interfaces
- Used MongoDB for storing student data
- Designed structured routes for smooth navigation

Car Price Predictor | Dec 2024

- Built a machine learning model to estimate car prices
- Cleaned and processed data using Pandas
- Used NumPy for calculations and data handling
- Created a simple UI using Bootstrap
